

Complete list of WSM references

The following is the list of all references used in the WSM database release 2025. For each data record the fields REF1 – REF6 provide the source of the reference with an abbreviation as explained in Tab. 2 1. In the WSM Technical Report TR 25-01 (<https://doi.org/10.48440/wsm.2025.001>).
